WORK EXPERIENCE

Web Developer (Independent)

Bee4Brendan.com

📅 Sep 2022 - current

📍 Oklahoma City, OK

- Improved Key Skills and proficiencies with **Udemy**, **ChatGPT**, **Leetcode**, and other various online resources
- Designed, developed, and maintained website / personal brand from the ground up using **C#**, **JavaScript**, **CSS**, **HTML**, **React**, **VS Code**, **GitHub**
- Developed personal web projects to strengthen frontend development skills and apply modern web technologies in practical applications

Full Stack Developer

Dudley Land Company

📅 February 2024 - January 2025

📍 Oklahoma City, OK

- Designed, developed, and tested full-stack features for Landman software, saving countless hours on contract management and generation using **React**, **TypeScript**, **CSS**, **HTML**, **C# (EF)**, **REST API**, **Redux**, **SQL**, etc.
- Collaborated closely with 5+ users and SMEs translating business needs into technical requirements and reliable software solutions
- Implemented reusable UI components and responsive layouts, enhancing user experience and improving usability
- Developed dedicated sections in the KUDU web application for HR and Accounting, enhancing personnel management

Computer Scientist (Software Developer)

Department of Defense / 76th Software Engineering Group

📅 Oct 2019 - May 2022

📍 Tinker AFB - Oklahoma City, OK

- Obtained and maintained a **Top Secret Security Clearance**, ensuring compliance with federal regulations and security protocols
- Designed, developed, tested, debugged, and improved sustainment solutions for the **Boeing E-3 Sentry** aircraft (**AWACS**) using **Java**, **C++**, **XML**, **Shell**, **Jira**, **Azure Devops**, **Eclipse**, **Git**, etc.
- Merged and documented code changes from multiple large code bases
- Collaborated with a large group of developers using Scrum methodologies and paired programming to deliver software features
- Participated in the full software development lifecycle, including planning, daily scrum, demos, retrospective, testing, and support

Bee4Brendan.com

Software Engineer I

Long Wave Inc

📅 May 2018 - Apr 2019

📍 Downtown - Oklahoma City, OK

- Obtained and upheld a **Secret Security Clearance** for 5+ years, enabling access to classified projects
- Developed software GUI and backend implementation for flight training simulations for **Boeing E-6B Mercury** aircraft (**TACAMO**)
- Designed and developed new user interface features and functionality for an internal application using **C#**, **WPF**, and **LINQ**, while ensuring code quality through rigorous testing in Visual Studio and TFS
- Worked with a team of 10+ developers using **Scrum** methodologies and paired programming to enhance project workflow and deliver features on time
- Participated in the full software development lifecycle, including planning, daily scrum, demos, retrospective, testing, and support

UCO Intern

University of Central Oklahoma

📅 Aug 2016 - Apr 2017

📍 Edmond, OK

- Contributed to the development of an **Android** application for power wheelchair users, utilizing Java and **XML** for user interface design
- Developed a mobile application using **Java** in Android Studio, focusing on user-friendly design and performance optimization
- Collected and analyzed accelerometer and gyroscope data to design and implement features for a motion-tracking application, enhancing user navigation accuracy
